YEAR IN REVIEW

news & trends

it's a love story

Fans hold giant cutouts of Taylor Swift and Travis Kelce during a game between the Philadelphia Eagles and Kansas City Chiefs on Nov. 20. The pair started dating after Kelce admitted to trying to give Swift his phone number via friendship bracelet at her Eras Tour stop in Kansas City, and the singer attended several Chiefs games throughout the season. Kelce's jersey sales skyrocketed by 400%, and Chiefs viewership soared amid their romance.

GOOD-BYE TO AN OLD FRIEND

Matthew Perry is pictured in a cast photo from the hit TV show "Friends." On Oct. 28, Perry died in his home in Los Angeles at the age of 54. Millions of fans around the world mourned Perry, who became famous for playing the character Chandler Bing on the hit '90s sitcom.

SUPREME ADMISSIONS

The Supreme Court rules 6-3 to end affirmative action in college admissions, reversing 45 years of legal precedent. The ruling prohibited colleges and universities from factoring race into admissions. Many institutions faced increased pressure after the announcement to end legacy admission practices, which some said restricted diversity efforts and provided an unfair advantage to students whose parents had attended. *Photo credit: Newscom*

JUSTICE FOR JUSTICES

On Nov. 13, the Supreme Court adopts an ethical code of conduct for justices for the first time in its history. The court faced pressure to increase accountability amid controversies related to justices receiving undisclosed personal gifts from wealthy donors. Critics of the new ethics code described it as ineffectual and felt it failed to provide serious consequences for violations. *Photo credit: Newscom*

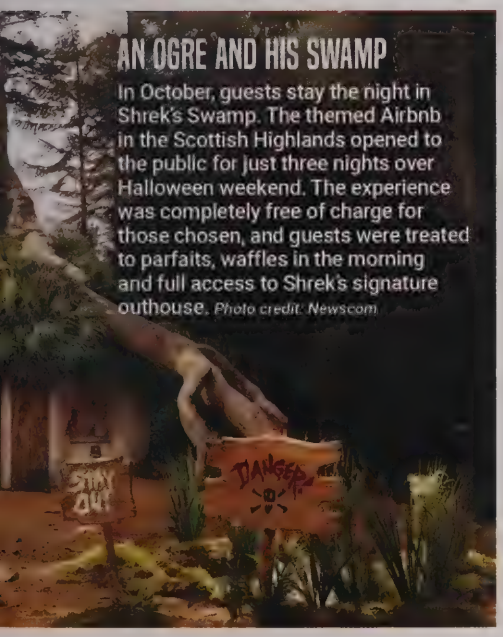
GENEROSITY IN BILLIONS

Billionaire philanthropist MacKenzie Scott donates more than $2 billion to over 300 organizations, following her pledge to donate the majority of her wealth. Since her 2019 divorce from Amazon founder Jeff Bezos, Scott had given more than $16.5 billion to 1,900 nonprofit organizations. While her philanthropy faced both praise and criticism, a report indicated slightly over half of surveyed nonprofits found her grants eased fundraising, with 88% considering it their largest unrestricted grant. *Photo credit: Newscom*



AN OGRE AND HIS SWAMP

In October, guests stay the night in Shrek's Swamp. The themed Airbnb in the Scottish Highlands opened to the public for just three nights over Halloween weekend. The experience was completely free of charge for those chosen, and guests were treated to parfaits, waffles in the morning and full access to Shrek's signature outhouse. *Photo credit: Newscom*

A MCBLAST FROM THE MCPAST

McDonald's much-anticipated restaurant spinoff, CosMc's, opens its first drive-thru in Bolingbrook, Illinois, on Dec. 7, ahead of the tentative 2024 debut. The limited chain, themed around the '80s and '90s alien character CosMc, aimed to capitalize on nostalgia. McDonald's planned to unveil approximately 10 pilot CosMc's locations by the end of 2024, initially targeting the Dallas-Fort Worth and San Antonio metro areas. *Photo credit: Newscom*

Barbie® breaking BARRIERS

Writer / Director Greta Gerwig shatters records and glass ceilings

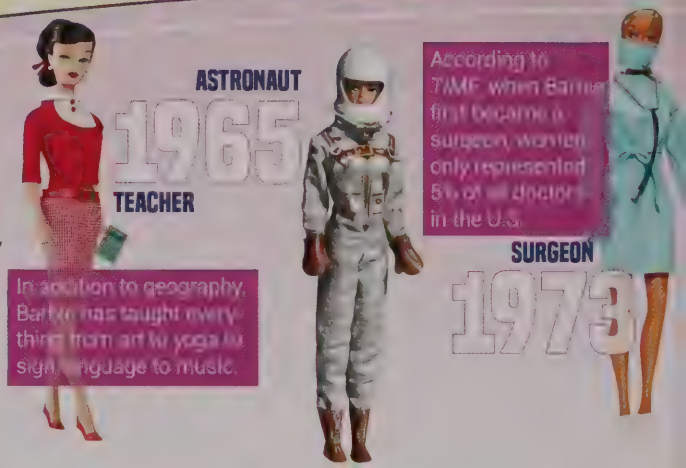
Becoming the film with the largest opening directed by a female as well as the biggest movie of 2023 worldwide, *Barbie* continued to set records that showed us it is, in fact, a Barbie World. In addition to the movie's joyful and funny moments, it also inspired through epic moments, including America Ferrera's character Gloria's speech about women's role in society. Claiming it's "literally impossible to be a woman," Gloria shared all the contrasting struggles women face. "I thought that this tightrope she's explaining is something that is present for women in the way that she's describing it, but it's also present for everybody," Gerwig said to *The New York Times*.

"I would never wear heels if my feet were shaped like this."
–Barbie

ON THE BRIGHT SIDE Showing off why Ken "literally" goes nowhere without his rollerblades, actors Margot Robbie and Ryan Gosling skate in Venice Beach while filming for *Barbie*. Although this scene was shot in California, most of the *Barbie* movie was filmed in the United Kingdom, including scenes in Barbie Land. "We were literally creating the alternate universe of Barbie Land," director Greta Gerwig said as told to *The Pioneer Woman*. "Everything needed to be tactile, because toys are, above all, things you touch."

CAREER woman

DOLLS THROUGH THE DECADES Displaying the fashion of her era, Barbie has held over 200 jobs since her inception in 1959. The original Barbie doll created by Mattel® was a model, but she quickly earned a job as a fashion designer in 1960. She went on to have a diverse portfolio of careers, including judge, Air Force pilot, NASCAR driver, architect, game developer and Olympic athlete.



TEACHER
In addition to geography, Barbie has taught everything from art to yoga to sign language to music.
ASTRONAUT
1965
According to TIME, when Barbie first became a surgeon, women only represented 5% of all doctors in the U.S.
SURGEON

BARBIE GIRLS IN A BARBIE WORLD Dressed up in Barbie pink, moviegoers Maddie Abiera, Khari Jenkins and Fran Abruzzo attend *Barbie* on opening weekend in Glendale, California. Actress Margot Robbie set the stage for the trend coined as "Barbiecore" by working with stylist Andrew Mukamal and wearing Barbie doll inspired outfits during the movie press tour. Beyond making a pretty in pink fashion statement, "Barbiecore" aimed to pair bright clothing with bold, confident attitudes.

"Fine, get cellulite. I don't care."
—Weird Barbie

MADE FOR MUSIC FINNEAS and Billie Eilish attend the *Barbie* World Premiere at Shrine Auditorium and Expo Hall in Los Angeles. The siblings co-wrote the haunting ballad *What Was I Made For?* as part of the all-star lineup on "Barbie the Album", which also included tracks by Lizzo, Dua Lipa, Nicki Minaj and Ice Spice. "WE MADE THIS SONG FOR BARBIE AND IT MEANS THE ABSOLUTE WORRRRLLLD TO ME," Eilish said on Instagram. "THIS MOVIE IS GONNA CHANGE UR LIVES AND HOPEFULLY THE SONG WILL TOO. GET READY TO SOB."

BARBENHEIMER The simultaneous release date of two films, *Barbie* and *Oppenheimer*, on July 21, becomes a double feature cultural phenomenon boosting ticket sales of both movies. Directed by Christopher Nolan, *Oppenheimer*'s dark biographical thriller about the man who created the atomic bomb was a significant contrast to Barbie's pink paradise. Pairing the movies together through marketing, social media and memes helped secure the fourth largest box office weekend in history, grossing a combined $244 million.

"Basically, everything that men do in your world, women do in ours."
—Barbie

can you feel KENERGY?

These favorite Ken movie quotes show us why he's more than "Kenough."

"You know surfing is not even my job and it is not lifeguard, which is a common misconception. Yeah, because actually my job, it's just beach."

"What will it take for her to see the man behind the tan and fight for me?"

"What if there's beach? You'll need someone professional in that."

"Is it my destiny to live and die a life of blond fragility?"

"I'm trained to stand confidently here."

"Is it just me or did these mojo dojo casa houses just get a whole lot dreamier?"

"To be honest, when I found out the patriarchy wasn't about horses, I lost interest anyway."

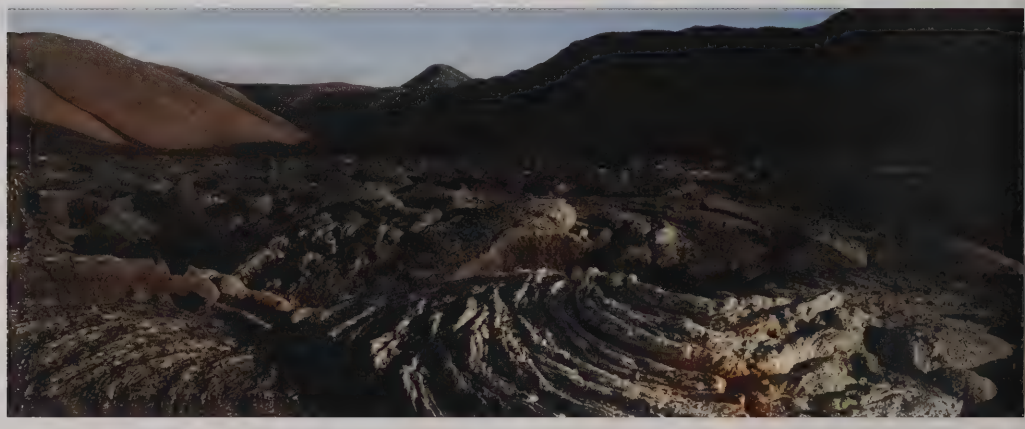
PAINT THE NIGHT

Swirling colors dance across the Alaskan night sky on Sept. 5. The rare celestial sight, usually reserved for higher latitudes, was seen all around the world for several nights this fall and winter thanks to a strong geomagnetic storm. Scientists predicted these shows to be the brightest in 20 years, with parts of the northern lights even reaching into Oklahoma. *Photo credit: Newscom*

ON THE BRINK OF ERUPTION

Following an initial eruption on Dec. 18, the Icelandic Meteorological Office warns of heightened volcanic activity as magma accumulates beneath the Earth's surface in Grindavik, Iceland. Situated atop tectonic plates, the town was rattled by thousands of earthquakes over the course of a few weeks, triggering a Civil Protection Service Level of Emergency to evacuate citizens. While the initial eruption released pressure, scientists noted rising land as magma continued to pool underneath the Svartsengi geothermal power plant. *Photo credit: Newscom*



the future of medicine

Scientists and doctors around the world research ribonucleic acid (RNA) therapies to treat a variety of viruses, diseases and other health issues. RNA medicines gained huge momentum in 2021 with the successful development of the COVID-19 vaccine, a messenger RNA (mRNA) treatment. Researchers continued to find new uses for this highly-targeted form of treatment and predicted its potential for immunotherapy, anti-viral treatments and tissue regeneration.

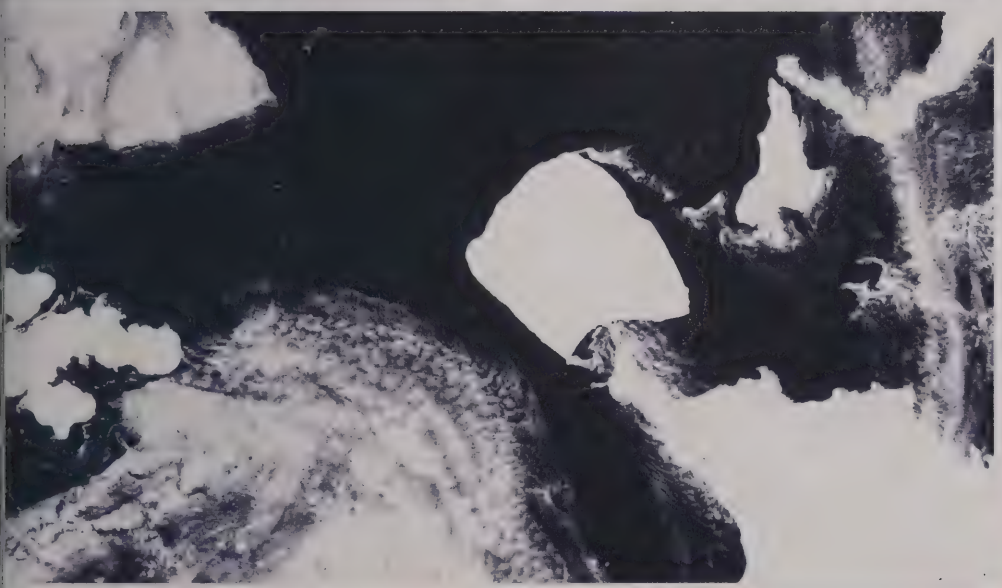
CLASH OF THE GIANTS

Threads makes its debut in early July shortly before its direct competitor Twitter officially rebrands to X. Launched by Meta, which also owns Instagram and Facebook, the brand-new social media platform was designed for sharing short text updates and joining public conversations. Meanwhile, X introduced a subscription model, which included features like removing ads, longer posts and the coveted blue checkmark. *Photo credit: Newscom*



BREAKING FREE

After being anchored to the ocean floor for three decades, the largest iceberg in the world breaks free of Antarctica and makes its way toward the open ocean. Scientists reported the iceberg, scientifically known as A-23a and weighing close to a trillion tons, was traveling northward at approximately 30 miles per day, propelled by strong wind and ocean currents. The mass was roughly three times the size of New York City and ranked among the world's oldest icebergs.

SUPER HEAVY TEST

A SpaceX Falcon 9 rocket launches from the pad at Cape Canaveral, Florida, on Nov. 12. SpaceX continued to push boundaries with its vehicle testing. The SpaceX super heavy Starship, the largest vehicle ever to have flown into space, made it into orbit on an unmanned test flight but was unable to make it through a planned 90-minute test. *Photo credit: Newscom*

OPEN FOR BUSINESS

TikTok launches its e-commerce platform, TikTok Shop, in the U.S., seeking to turn its cultural influence into sales. Available to 40% of the app's users, the Shop tab reached all 150 million U.S. users by October, and over 200,000 sellers and 100,000 content creators applied for the program. TikTok Shop's launch came amidst U.S. government negotiations and criticisms, with the platform assuring users of a secure checkout process and Oracle-managed U.S. user data storage.
